

# How To Export Your Favorites To The Network

1. Open Internet Explorer.
2. Go to *File | Import and Export...*

3. The Import and Export Wizard starts. Click *NEXT* to get this screen.

4. Click "*Export Favorites*" and you will get a screen of all your Favorites. Click *NEXT*.

## How To Export Your Favorites To The Network

5. You will get a screen that asks for the destination. Just replace everything before “\bookmark.htm” with H: so it reads H:\bookmark.htm.
6. Click *NEXT* then *FINISH*. You’re done!
7. Next year, you can either access your Favorites from there or import them back to your PC using the same “wizard”.
