SUBJECT: CAREER AND TECHNICAL (OCCUPATIONAL) EDUCATION

The Board of Education recognizes the need for career and technical education and reaffirms its policy of strengthening the local high school career and technical education program through utilization of any available federal and state funds for that purpose and of supporting the BOCES program.

Equal Opportunity

The Board of Education prohibits discrimination on the basis of sex, sexual orientation, race, color, creed, religion, national origin, political affiliation, age, marital status, military status or disability in any career and technical education program or activity of this District.

The career and technical education program and/or activities shall be readily accessible to students with disabilities.

Public Notification

Prior to the beginning of each school year or academic semester, the District shall issue an appropriate public announcement which advises students, parents, employees and the general public that career and technical education opportunities will be offered without regard to sex, sexual orientation, race, color, creed, religion, national origin, political affiliation, age, marital status, military status or disability. Included in such announcement will be the name, address, and telephone number of the person designated to coordinate Title IX/Section 504/ADA activities.

Grievance Procedure

Grievance procedures for resolving complaints regarding discrimination shall be disseminated to adequately inform students, parents and employees of the existence of these procedures.

INTERPERSONAL VIOLENCE PREVENTION EDUCATION****Civility, Citizenship and Character Education**

The Board of Education recognizes that teaching students respect, civility and understanding toward others, as well as the practice and reinforcement of appropriate behavior and values of our society, is an important function of the School System.

The School District wishes to foster an environment where students exhibit behavior that promotes positive educational practices, allows students to grow socially and academically, and encourages healthy dialogue in respectful ways. By presenting teachers and staff as positive role models, the District stresses positive communication and discourages disrespectful treatment. This policy is not intended to deprive and/or restrict any student of his/her right to freedom of expression but, rather, seeks to maintain, to the extent possible and reasonable, a safe, harassment free and educationally conducive environment for our students and staff.

Furthermore, the District shall ensure that the course of instruction in grades K through 12 includes a component on civility, citizenship and character education in accordance with Education Law. Character education is the deliberate effort to help students understand, care about, and act upon core ethical values.

Character education shall instruct students on the principles of:

- a) Honesty,
- b) Tolerance,
- c) Personal responsibility,
- d) Respect for others,
- e) Observance of laws and rules,
- f) Courtesy,
- g) Dignity, and other traits which will enhance the quality of students' experiences in, and contributions to, the community.

SUBJECT: ANIMALS IN THE SCHOOL (INSTRUCTIONAL PURPOSES)

Observation and experimentation with living organisms and animals gives students unique perspectives of life processes. Animals and animal materials should be used respectfully and for the purpose of meeting course objectives.

The Board of Education, in recognizing the educational uses of animals in the classroom, requires that permission be obtained from the Building Principal before animals are brought into the school or classrooms. It is the Principal's responsibility to ensure that there is an appropriate educational purpose if any animal is housed in a classroom. Animals are not to be transported on school buses with the exception of animals certified to assist persons with disabilities.

Study and Care of Live Animals

It shall be the responsibility of the Principal or his/her designee to develop a plan of care for those animals housed in school in the event of an emergency school closing or in the event the animals remain in the classroom on days when school is not in session.

Dissection of Animals

Any student expressing a moral or religious objection to the performance or witnessing of the dissection of an animal, either wholly or in part, shall be provided the opportunity to undertake and complete an alternative project approved by the student's teacher; provided, however, that such objection is substantiated in writing by the student's parent or legal guardian. An alternate activity clearly related to and of comparable rigor will be assigned in lieu of laboratory dissection. Some examples of alternate activities include the use of computer simulations or research. Students who perform alternative projects shall not be penalized.

Effective July 1, 2011, the District will give reasonable notice to all students enrolled in a course that includes the dissection of an animal and students' parent(s)/legal guardian(s) about their rights to seek an alternate project to dissection. Such notice shall be made available upon request at the school and distributed to parents and students enrolled in a course that includes dissection at least once at the beginning of the school year.

Such instruction shall be for a period of time as specified by the Board of Regents and may be joined with work in literature, reading, language, nature study, or ethnology.

**SUBJECT: CHILDREN'S INTERNET PROTECTION ACT: INTERNET CONTENT
FILTERING/SAFETY POLICY**

In compliance with the Children's Internet Protection Act (CIPA) and Regulations of the Federal Communications Commission (FCC), the District has adopted and will enforce this Internet safety policy that ensures the use of technology protection measures (i.e., filtering or blocking of access to certain material on the Internet) on all District computers with Internet access. Such technology protection measures apply to Internet access by both adults and minors with regard to visual depictions that are obscene, child pornography, or, with respect to the use of computers by minors, considered harmful to such students. Further, appropriate monitoring of online activities of minors, as determined by the building/program supervisor, will also be enforced to ensure the safety of students when accessing the Internet.

Further, the Board of Education's decision to utilize technology protection measures and other safety procedures for staff and students when accessing the Internet fosters the educational mission of the schools including the selection of appropriate teaching/instructional materials and activities to enhance the schools' programs; and to help ensure the safety of personnel and students while online.

However, no filtering technology can guarantee that staff and students will be prevented from accessing all inappropriate locations. Proper safety procedures, as deemed appropriate by the applicable administrator/program supervisor, will be provided to ensure compliance with the CIPA.

In addition to the use of technology protection measures, the monitoring of online activities and access by minors to inappropriate matter on the Internet and World Wide Web *may* include, but shall not be limited to, the following guidelines:

- a) Ensuring the presence of a teacher and/or other appropriate District personnel when students are accessing the Internet including, but not limited to, the supervision of minors when using electronic mail, chat rooms, and other forms of direct electronic communications. As determined by the appropriate building administrator, the use of e-mail and chat rooms may be blocked as deemed necessary to ensure the safety of such students;
- b) Monitoring logs of access in order to keep track of the web sites visited by students as a measure to restrict access to materials harmful to minors;
- c) In compliance with this Internet Safety Policy as well as the District's Acceptable Use Policy, unauthorized access (including so-called "hacking") and other unlawful activities by minors are prohibited by the District; and student violations of such policies may result in disciplinary action; and
- d) Appropriate supervision and notification to minors regarding the prohibition as to unauthorized disclosure, use and dissemination of personal information regarding such students.

(Continued)

Instruction

**SUBJECT: CHILDREN'S INTERNET PROTECTION ACT: INTERNET CONTENT
FILTERING/SAFETY POLICY (Cont'd.)**

The determination of what is "inappropriate" for minors shall be determined by the District and/or designated school official(s). It is acknowledged that the determination of such "inappropriate" material may vary depending upon the circumstances of the situation and the age of the students involved in online research.

The terms "minor," "child pornography," "harmful to minors," "obscene," "technology protection measure," "sexual act," and "sexual contact" will be as defined in accordance with CIPA and other applicable laws/regulations as may be appropriate and implemented pursuant to the District's educational mission.

Under certain specified circumstances, the blocking or filtering technology measure(s) may be disabled for adults engaged in bona fide research or other lawful purposes. The power to disable can only be exercised by an administrator, supervisor, or other person authorized by the School District.

The School District shall provide certification, pursuant to the requirements of CIPA, to document the District's adoption and enforcement of its Internet Safety Policy, including the operation and enforcement of technology protection measures (i.e., blocking/filtering of access to certain material on the Internet) for all School District computers with Internet access.

Cyberbullying

As with other forms of bullying, cyberbullying is an attempt to display power and control over someone perceived as weaker. Cyberbullying involving District students may occur both on campus and off school grounds and may involve student use of the District Internet system or student use of electronic devices while at school, such as cell phones, digital cameras, and personal computers to engage in bullying.

Cyberbullying includes, but is not limited to, the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another student or staff member by way of any technological tool, such as sending or posting inappropriate or derogatory e-mail messages, instant messages, text messages, digital pictures or images, or Web site postings (including blogs).

Cyberbullying has the effect of:

- a) Physically, emotionally or mentally harming a student;
- b) Placing a student in reasonable fear of physical, emotional or mental harm;
- c) Placing a student in reasonable fear of damage to or loss of personal property; and
- d) Creating an intimidating or hostile environment that substantially interferes with a student's educational opportunities.

(Continued)

Instruction

**SUBJECT: CHILDREN'S INTERNET PROTECTION ACT: INTERNET CONTENT
FILTERING/SAFETY POLICY (Cont'd.)**

Also, cyberbullying that occurs off-campus, which endangers the health and safety of students or staff within the school or can be reasonably forecast to cause a material or substantial disruption to the educational process, is prohibited. Such conduct could also be subject to appropriate disciplinary action in accordance with the *District Code of Conduct* and possible referral to local law enforcement authorities.

Internet Safety Instruction

In accordance with New York State Education Law, the School District may provide, to students in grades K through 12, instruction designed to promote the proper and safe use of the internet. The Commissioner shall provide technical assistance to assist in the development of curricula for such course of study which shall be age appropriate and developed according to the needs and abilities of students at successive grade levels in order to provide awareness, skills, information and support to aid in the safe usage of the internet.

Notification/Authorization

The District's Acceptable Use Policy and accompanying Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and student's obligations when accessing the Internet.

Student access to the District's computer system will automatically be provided unless the parent has submitted written notification to the District that such access not be permitted. Procedures will be established to define the process by which parents may submit a written request to deny or rescind student use of District computers.

The District has provided reasonable public notice and has held at least one (1) public hearing or meeting to address the proposed Internet Content Filtering/Safety Policy prior to Board adoption. Furthermore, appropriate actions will be taken to ensure the ready availability to the public of the District's Internet Content Filtering/Safety Policy, as well as any other District policies relating to the use of technology.

Teachers wishing to call upon outside speakers in the presentation of controversial issues are required to obtain the approval of the Principal who shall keep in mind the obligation for presenting opposing views as well, and who shall inform the Superintendent prior to the presentation.

It is recognized that parents and citizens of the community have a right to protest to the school administration when convinced that unfair and biased presentations are being made by the teacher. Instruction

SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.
